# Rockwell

The Nature-Inspired Window Well

**RockWELL™**

BUILD WELL, LIVE WELL.

## 1 Inspired by Nature

Rockwell uses True Texture™ to beautifully mimic stone, so the light source in your basement looks like a landscape instead of an industrial eyesore.

## 2 Designed for Peace of Mind

Rockwell's 66 Series are egress compliant, the 42 Series is non-egress. With built-in steps, you will always know there's a safe and easy way to escape your basement.

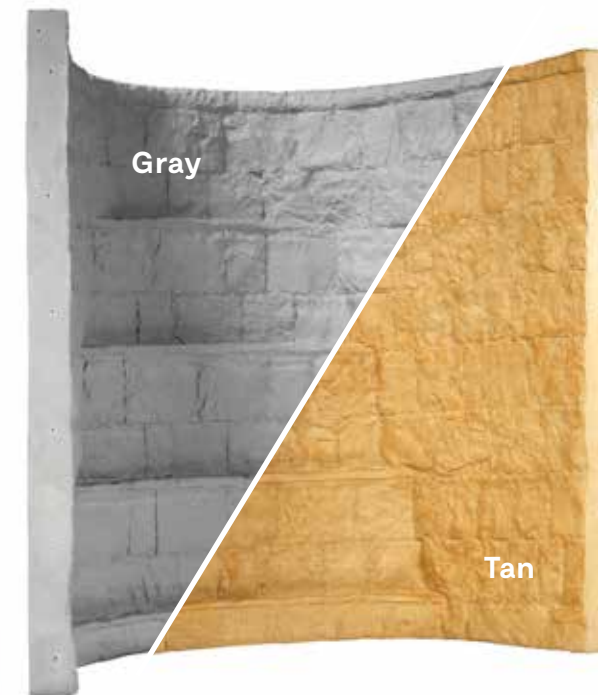

## 3 Maximum Durability

Every window well is made of a one-piece rigid composite construction. Making them completely resistant to the elements. Whether it's water, frost, extreme temperature, rust, rot, or UV, your window well won't lose color, or deteriorate.

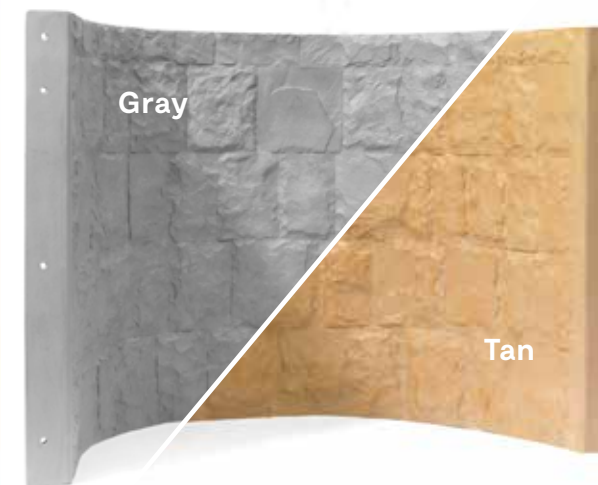

## 4 Simple and Seamless Installation

Every window well weighs far less than their steel counterparts and is designed to mount perfectly to the foundation wall of your home.

### Rockwell 66 Series

ITEM #	WIDTH	PROJECTION	HEIGHT	WEIGHT
664496	66	44	96	155
